

Jomo Kenyatta Public Beach, Mombasa, Kenya

SERVICES PROVIDED

Architects, Urban Designer

PROJECT TYPE

Masterplanning / Urban Design

LOCATION

Mombasa, Kenya

YEAR

2019

STATUS

Design Proposal

[Design concept for the regeneration of Jomo Kenyatta Public Beach.](#)

Jomo Kenyatta Public Beach is located on Bamburi in Northern Mombasa, off the Mombasa-Malindi Highway and was reserved as a public beach for recreation in 1960 under Management of the Mombasa Municipal Council. It covers approximately 3.7 hectares.

The beach and surrounds are well utilised by the public, especially during holidays and over the weekends. However, services and facilities provided are not sufficient and should be further improved to enhance its utility.

Jomo Kenyatta Beach can be greatly improved with simple interventions. PLANNING's proposal is focused on creation of public spaces that are well designed, well defined, inclusive, and usable. Any interventions would be geared towards improving the user experience in what is already a highly utilized and popular beachfront. Access and circulation are improved and pedestrian movement is enhanced and prioritized.
