Mombasa, Kenya

YEAR

Completed in 2015

English Point Marina is a contemporary residential and hotel development on the Kenyan coast, located on a 4-acre beach front site across the creek from the historic Fort Jesus, with its spectacular view across the skyline of Mombasa Old Town.

English Point Marina offers apartment living with the comfort, luxury and security of a hotel, and will be managed by the award winning team of the Pinewood Village Beach Resorts. This development was conceptualized by Broadway Malyan, a UK based architectural firm, with PLANNING being brought on board to develop the design, and detailed design drawings, and supervise the construction.

On-site facilities include a hotel, restaurant, spa & gym, serviced marina, water-sport centre and boardwalk with retail outlets. Underground car parking, beneath and between the buildings. The residential component has four apartment blocks, each housing twelve 3-bedroom apartments, two penthouse apartments and one basement apartment, all on five floors. The blocks are interlinked by what are known as lush-links. Green spaces are developed as roof-top gardens above the exposed roof areas of the basement. The hotel block features 23 air-conditioned rooms with 3 suites and conference facilities.
