STATUS

Design Proposal

The proposed peponi town development sits on lushscapes - all well considered and designed so a quality lifestyle is within reach - no matter what stage of life you're in.

In our vibrant proposed town development, you'll find plenty of small shopping, eating and open green areas plus much more, and all this is within short walking distance from your new and environmentally conscious spacious dwelling!

The proposal considers the residents privilege to plenty of green breathable pockets of spaces - to play, be active or relax - accessible via easy walkable and spacious trails straight from your new home - the basis of the vision of the proposal. And of course, there's the also modern conveniences and facilities tucked in the design that will make our everyday that much better!
