STATUS

Design Concept

Design concept for a mixed-use commercial development in Kingongo, in the outskirts of Nyeri.

The development consists of a mix of retail and leisure, in a setting aimed to create a destination attracting a wide range of customers and visitors. The strategic location of the site, offering good access from major roads and generous views to Nyeri town to the south and Mount Kenya to the north-east, offers opportunities for a wide range of retailers and business.

The masterplan provides a spatial layout aimed at optimizing the visitor's experience whilst locating business in a rational manner around a central pedestrian plaza from which businesses are directly accessed. The central space is designed as a multi-use space to be flexible to accommodate a wide range of uses and events.
